

What is Technical Vocational Teacher Education?

Technical Vocational Teacher Education is a 90-credit hour part-time program with continuous entry. The program is designed to develop the knowledge and skills required for Technical Vocational Teacher certification by Manitoba Education. The program makes up the first three years of the five-year joint RRC/University of Winnipeg Bachelor of Education degree with a major in Vocational Education. Upon successful completion of this program, graduates will receive a diploma from Red River College and will be eligible for a Permanent Technical Vocational Teaching Certificate issued by Manitoba Education. Program information is found at rrc.ca/vtp.

Note: Students must submit an application and successfully meet all admission requirements prior to being allowed to register for any courses within this program.

Course Delivery Options

For 2021, all courses will be offered via one of the following two distance delivery methods:

Asynchronously online: Learners participate in course-related activities within LEARN, our current learning management system. Learners follow an instructional schedule (adhering to due dates, etc.) but work on activities during times that accommodate the learner's personal schedule. Learners may be invited to participate in optional online discussion forums or synchronous activities at specific times throughout the course. This type of delivery is a reasonable option for students who need a flexible schedule.

Synchronously online: Learners participate in course-related activities using a web-based video conferencing tool like MS Teams or Webex. Learners are required to connect to live/synchronous sessions where they will participate in learning activities with the instructor and other learners. In this delivery method there will also be some independent online commitments guided by the course schedule. Both components are required and may not be taken separately.

CAE Registration Processes and Policies

RRC is moving to a new online student planning and registration platform for the 2021 academic year. Students should check their RRC academic email regularly for the most up-to-date registration information and instructions.

Students can consult the program handbook for course requirements or consult with the program coordinator. The program handbook can be found at rrc.ca/vtp.

Students are eligible to register for up to two courses per term for a maximum of six courses per year.

For course-based registration instructions visit rrc.ca/course-based-registration

All registration inquiries should be directed to Enrolment Services at 204.632.2306 or register@rrc.ca.

Course offerings are subject to change based on student interest and instructor availability.
